

**Join Borough President Molinaro
Speak Out for Common Sense!**

PUBLIC HEARING ON FRESH KILLS
Thursday, September 4, 2008

at P.S. 58, 77 Marsh Avenue Begins at 7PM
(Behind the Staten Island Mall)

Why? Because this is your ONLY opportunity to tell City officials that we need a wind farm and the existing roads open at Fresh Kills.

How? At the hearing, you can either speak (up to 3 minutes), or observe from the audience. Your presence will make a statement!

Open The Roads

Borough President Molinaro urges the City to open the existing roads in Fresh Kills. It would cost far less than building new roads. The roads are there, offering a once-in-a-lifetime opportunity to reduce traffic congestion.

Create a Wind Farm

Seven wind turbines at Fresh Kills would generate 17.5 megawatts of energy, equal to 4.3 million gallons of oil. Built at no cost to the taxpayers, it would reduce our dependence on foreign oil.
