

Staten Island September 11 Memorial

Guide to locating names on Remembrance Plaques

Names are listed alphabetically with a location key on Pages 2-3.

First find the name and then use the key to locate placement using the chart on Page 4.

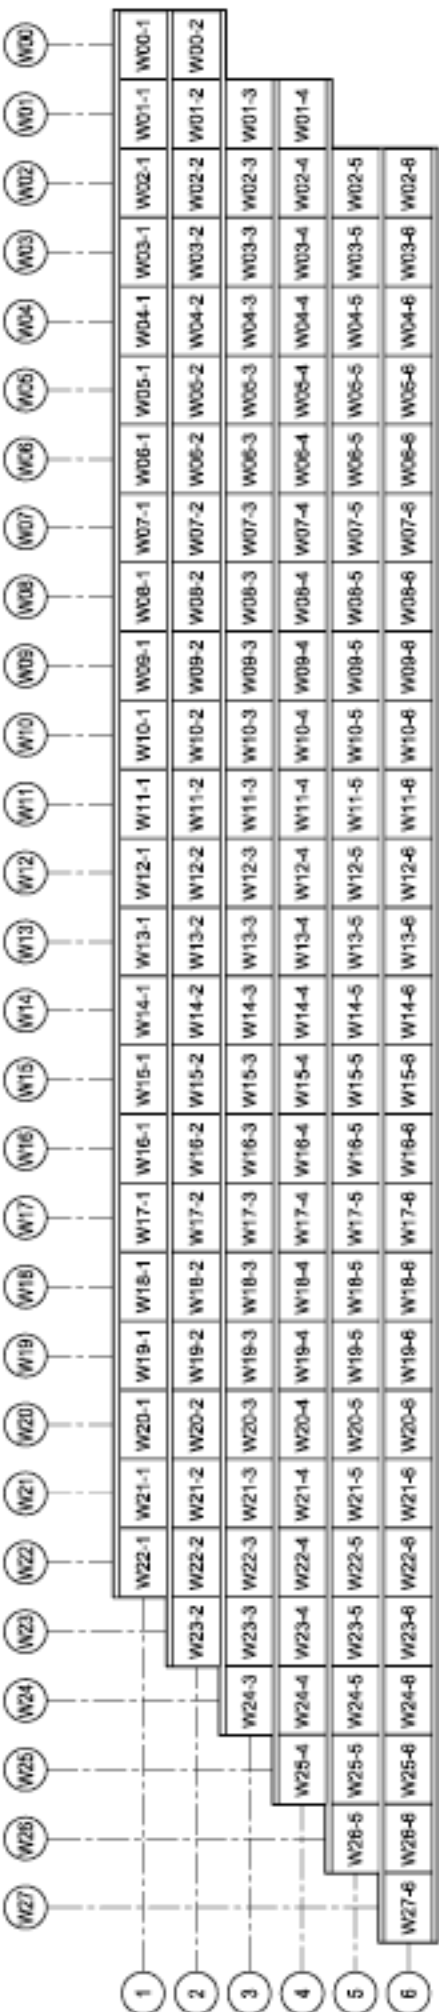

The location key begins with the letter E or W, indicating either the east wall or the west wall.

The first 2-digit number (00-27) indicates the plaque location from north (water's edge) to south.

The last number (1-6) indicates the rows, from top to bottom.
