Re: Ponding Problem in Front of 227 Riedel Avenue

Dear Deputy Commissioner Roberts:

I am writing with the hope that you can be of assistance with a constituent matter, or in the alternative, forward this correspondence to the appropriate individual within the New York City Department of Environmental Protection.

My office was recently contacted by residents of Riedel Avenue regarding a ponding problem in front of 227 Riedel Avenue. According to my constituents, the water ponds in the street and often overflows onto the sidewalks after each rainfall and when residents water their lawns. My constituents believe this problem may be a result of the lack of adequate drainage facilities in the area.

I would appreciate it if you could investigate this matter and notify me of your findings so that I may advise my constituents accordingly.

Very truly yours,

James S. Oddo  
Borough President
