Re: Spectrum Time Warner Employees on Strike

Dear Mr. Rutledge;

I hope this letter finds you well. And if not well, at least better than the nearly 100 Staten Island families with a loved one who is a Spectrum employee and on strike.

I met recently with a group of those Spectrum employees and while I know that there are two sides to every negotiation, it became evident to me that while these folks are hurting, they are steadfast in their beliefs.

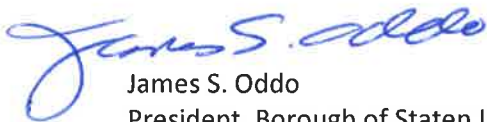

I am certainly not a labor negotiator, nor am I equipped with the time, talent or desire to settle labor/management disputes. But I am the local representative charged with helping in any and every way possible the lives of the nearly 500,000 people I represent. Every day, in ways big and small, my team here at Borough Hall and I endeavor to do just that. I left my meeting with the Spectrum families with a greater appreciation of the importance of working to find a path that will lead these employees back to earning a paycheck they both need and deserve, and with a greater commitment to doing whatever I can to assist them in getting this matter settled.

I am asking the talented people on both sides of this dispute to get back to the table. Both labor and management will benefit by ending this strike – as will all Staten Islanders and other New Yorkers.

These are good folks with good families. Spouses, children and parents have been negatively impacted. Please, let's do all we can to resolve the issues and end this strike.

Thank you for your time and kind attention, and know that I remain hopeful that this matter will be resolved quickly.

Sincerely,

James S. Oddo
President, Borough of Staten Island
